Spearheading best practices and ideas for corporate governance and sustainability

Centre for Governance, Institutions & Organisations
NUS Business School
“We contribute ultimately to the development of our society, particularly in Asia and Singapore, so that some of our ideas can lead to better professional practices and better businesses.”

Associate Professor Lawrence Loh
CGIO Director

VISION

To be the leading centre in Singapore and Asia, recognised globally for its research in institutional betterment of the world especially in corporate governance and sustainability

MISSION

To stimulate thought leadership and contribute to the sustainable development of Asian societies and economies centred on a foundation of strong corporate governance

RESEARCH & COLLABORATION OPPORTUNITIES

CGIO undertakes the following research and industry-related work:

• Developing and publishing indexes such as the ASEAN Corporate Governance Scorecard, Business Integrity Reporting, Singapore Corporate Governance Awards, Singapore Governance and Transparency Index, Sustainability Reporting

• Organising forums and rountables to stimulate discussion and disseminate best practices

• Preparing and disseminating case studies on issues relating to best governance practices

• Organising an annual academic conference to network with similar research institutions around the world

• Conducting training for industry professionals in governance and sustainability issues
Centre for Governance, Institutions and Organisations (CGIO)

CGIO spearheads efforts to promote intellectual leadership and the practical relevance of corporate governance and sustainability to business communities and governments in Singapore and Asia.
