

CGIO'S RESEARCH NEWSLETTER

Governance, Sustainability and Global Value Chains

With the increased attention on corporate sustainability (CS), CGIO invited Senior research fellow Alex Capri to helm its global value chains and sustainability research arm. This strengthened the CS studies undertaken by CGIO in Singapore and in ASEAN since 2015.

2018 continues to be another fruitful year for CGIO as it continues its industry engagements with institutions and organisations such as Monetary Authority of Singapore, Securities Investors Association (Singapore) (SIAS), Singapore Institute of Directors, Singapore Exchange, to name a few.

Ongoing and New Research Projects

The following research projects are handled by CGIO's team of 4 researchers under Prof Lawrence Loh's leadership.

1. Singapore Governance and Transparency Index (SGTI)
2. ASEAN Corporate Governance Scorecard (ACGS)
3. Corporate Disclosures on Business Integrity in ASEAN
4. SIAS Investors' Choice Awards
5. Sustainability Reporting in ASEAN and Singapore
6. Micro and Small Businesses in Indonesia's Digital Economy
7. Sustainable Banking in ASEAN Report 2018

CGIO more than doubled the number of media mention from 211 in 2017 to 463 in 2018. This huge jump attests to the significance and importance of CGIO's impact on CG and CS.
