

## ***Distinguished Speakers Series on Big Data and Digital Transformation***

**HOW TO SURVIVE THE INDUSTRY 4.0 ERA**

**OBSERVATIONS FROM AN ACCOUNTANT-TURNED  
DIGITAL TRANSFORMATION LEADER**

Speaker:  
**Mr. Vincent Loy, Financial Services Leader, Singapore  
Managing Director, Accenture**

Chairperson:  
**Professor Chua Kim Chiu, Accounting Department  
NUS Business School**

### **Abstract**

*In this seminar, Mr. Loy will share his views about how to move from an average “number cruncher” to an IT consultant through his personal story. Furthermore, based on his rich working experience with various organizations, Mr. Loy will provide the audience more insights about what kind of digital transformation related problems organizations face, and how to get buy-in and implement solutions in a sustainable manner.*

### **About the Speakers**

*Mr. Vincent Loy will be joining MAS as Assistant MD on 1 May 2019 responsible for Technology, Data, Cyber and Technology Regulations. Mr. Loy led the Accenture Singapore Financial Services. Prior to Accenture, Mr. Loy was in PwC as the Leader for Financial Crime and Cyber for Asia Pac and also led the Financial Services Risk Assurance in Singapore. He specializes in managing large scale transformation and managing risks relating to digital, disruption and Fintech confronting complex global organizations. These include assessing, designing and implementing complex change programmes in business,*

technology and cyber risk, controls and governance, resilience and compliance framework in the financial services and government sectors.

Prior to Singapore, Mr. Loy spent more than 20 years in UK and led PwC UK Financial Services Technology Risk practice and was responsible for building the Technology Risk business and advised major international financial institutions and regulators in both the UK and US. In recent years, Mr. Loy has been recognized as a thought leader on technology transformation and cyber risks, advising various organizations, including governments and regulators on digital transformation, cyber security & technology risk strategy. Mr. Loy advised Interpol as the knowledge partner for Interpol World. Mr. Loy sits on the MAS International Advisory Board on cyber and is also a member of the advisory board at NUS School of Computing. In addition, Mr. Loy was a sub-committee member of the Committee for Future Economy of Singapore which helps to chart the shape of Singapore's future economy.

Currently, Mr. Loy is doing a midterm review for NRF on Virtual Singapore and also will be sitting on MCI panel of experts.
