Singapore Citizens and
Singapore PRs**

Climate Change for Leaders: Risks, Opportunities and Sustainable Finance

Nowadays, businesses need to go beyond the surface understanding of the challenges posed by climate change and global warming. It is important for corporate leaders to anticipate and plan for the business impacts arising from changing climate policies and regulations, dynamics of international climate politics, calls for greener investments and increasing pressure from stakeholders and consumers.

This specially-curated programme is designed to help business leaders and executives to gain a deeper understanding of the dynamics of climate change, sustainable finance and ESG topics in the Asia context. Participants would also attain insights from the latest international trends in sustainability disclosures and carbon management through a specialist panel of distinguished industry leaders and ESG practitioners.

Participants will:

- Deepen their knowledge and understanding of climate change from different perspectives;
- Enhance capabilities in sustainable finance leadership; and
- Understand the business case of sustainability and carbon management in the Asia context.

Participants will be awarded a certificate of completion by CGS.

SPEAKERS

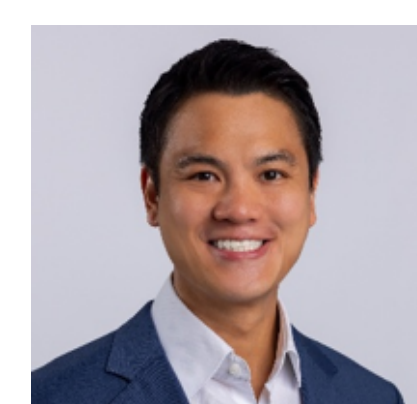

Prof Lawrence Loh

Prof Lawrence Loh is Director, Centre for Governance and Sustainability (CGS) at the NUS Business School, National University of Singapore (NUS). He is also a Professor of Strategy and Policy at NUS Business School and Visiting Professor at the Wealth Management Institute in Singapore.

Prof Loh received a PhD in Management from the Massachusetts Institute of Technology. His thesis on technology governance was awarded first prize in the worldwide doctoral dissertation competition in the field of management information systems.

At CGS, Prof Loh leads the Sustainability Reporting initiative covering ASEAN and Singapore corporations. He also steers the Singapore Governance and Transparency Index and the ASEAN Corporate Governance Scorecard projects. Prof Loh heads the studies on board and workplace diversity and business integrity.

Prof Loh is a regular commentator on governance and sustainability for many leading global and local media. Over the years, he has served as a judge for various prestigious sustainability awards in Asia and Singapore. Prof Loh teaches Governance and Sustainable Business for NUS Executive MBA program. He regularly conducts executive development programs in governance, sustainability and strategy for board directors, senior management and business professionals.

Mr Alvin Lim

Mr Alvin Lim is the CEO and Co-founder of Climate Bridge International, where he leads the international business of Climate Bridge Group, one of Asia's leading carbon finance companies.

He is a carbon markets specialist and former Head of Asia Environmental Products at Morgan Stanley and Vice President in the Enterprise Strategy team at GIC (Singapore's sovereign wealth fund), where he authored several white papers on the role of carbon markets for asset owners.

Alvin is a member of the Expert Advisory Group of the Voluntary Carbon Markets Integrity Initiative (VCMII) and a Senior Fellow at the National University of Singapore Centre for Governance and Sustainability. He also contributed to the Singapore Government Emerging Stronger Taskforce Sustainability working group that recommended the establishment of a carbon trading and services hub in Singapore.
