**TOEFL: 112** (Reading: 30, Listening: 30, Speaking: 23, Writing: 29)

## PUBLICATION

---

**Shiqi, Li, Shixin, Ma.** *R&D Investment and Idiosyncratic Risk: Evidence from China*, ICEME 2021, Accepted

- Collected firm-level data for investigating the influence of research and development (R&D) investment on firms' idiosyncratic risk
- Made a conclusion that firms' R&D investment has a negative relationship with firms' idiosyncratic risk
- Conducted analysis to further demonstrate that the effect of R&D investment on firms' idiosyncratic risk is more pronounced in firms with lower market capitalization, non-state owned, lower leverage and non-Big 4 auditing
- Provided support to the notion that R&D investment can push firms' innovation to further increase the diversification of the product and reduce their idiosyncratic risk.

**Shiqi, Li.** *Leadership Style, Organizational Culture and Performance: Evidence from China's Manufacturing Industry*, AMC Digital Library, Accepted

- Measure leadership style (transformational or transactional) on organizational culture and job satisfaction and how these eventually affect organizational effectiveness and performance.
